

PRINCIPAL'S MESSAGE

Parkview Families,

It has been a great week at Parkview. Our teachers have been planning really effectively and helping your students respond in complete sentences when speaking in class. Instead of, "The answer is 6." Teachers have encouraged students to respond in ways similar to this, "I believe the answer is 6, because..." This is a great skill to encourage at home as well. We are testing with WIDA and Interim Assessments over the next few weeks so please make sure your students are getting some good rest at night and a healthy breakfast. Talk to your kiddos about trying their very best on these interim tests so they can show us all the great things they have learned.

The Word of the Week next week is "Cheerfulness". This means being happy and positive about life. Please take a moment and discuss what it means to have cheerfulness with your kiddos. We will do the same throughout next week.

Sincerely,

Mrs. Bergera and Mr. Yates

AFTER SCHOOL COMPUTER LAB

Parkview students can now come to the computer lab after school to practice using programs like Lexia, IXL, and Aleks outside of school hours. Students can participate on a first come, first serve basis. The lab will be open for 1hr after school on the following days:

Wed	Thurs	Fri
2:30-3:30pm	2:30-3:30pm	12:25-1:25p

PARENT SEMINAR

Salt Lake School District has a very special opportunity for you and your family. On February 22, 2017 SLSD will have two presentations for parents. The first speaker is from Comunidades Unidas and will speak about immigrant rights on U.S. soil regardless of legal status, as well as how to apply to DACA. This will be followed by our parent advisory meeting, presented by the National Alliance for Mental Illness (NAMI). NAMI will speak to the warning signs of depression and suicide. Please join us for this event. Presentations are set in English and Spanish. If you speak another language and need a translator please contact Ines at ines.lazalde@slcschools.org or call 801-974-8304 ext. 102. Childcare and dinner will be provided.

OPEN ENROLLMENT

Open enrollment is from December 1, 2016- February 17, 2017. If you do not live within the Parkview boundaries and are attending Parkview on special permit, you will be notified in March about permit renewal.

If you live out of bounds and have a student starting school next year and are wanting them to attend Parkview, you will need to fill out a permit for each new student. Please apply at the Salt Lake City School District building in the Student Services Department.

It is a good idea to apply sooner for a special permit rather than later. Please ask the Main Office if you have any questions about this process or where you need to go to apply.
